

Affect Dysregulation and Disorders of the Self (Hardback)

Filesize: 9.47 MB

Reviews

A very awesome book with perfect and lucid reasons. It really is basic but shocks within the 50 percent of the book. Its been designed in an exceptionally easy way and is particularly merely right after i finished reading this ebook where in fact changed me, change the way i think.

WW Norton & Co, United States, 2003. Hardback. Condition: New. Language: English. Brand new Book. In 1994 Allan Schore published his groundbreaking book, *Affect Regulation and the Origin of the Self*, in which he integrated a large number of experimental and clinical studies from both the psychological and biological disciplines in order to construct an overarching model of social and emotional development. Since then he has expanded his regulation theory in more than two dozen articles and essays covering multiple disciplines, including neuroscience, psychiatry, psychoanalysis, developmental psychology, attachment, and trauma. *Affect Dysregulation and Disorders of the Self* contains writings on developmental affective neuroscience and developmental neuropsychiatry. It is absolutely essential reading for all clinicians, researchers, and general readers interested in normal and abnormal human development.
